

Microneedling Aftercare

You Will Be Red For 24 hours
Aloe Vera will help reduce redness

No Exercise Today
Sweat can irritate the treated area

Stay Out Of The Sun
Stay out of the sun the day you received Microneedling. Use mineral sunscreen for a week after treatment

No Make Up Today

Use Hyaluronic Acid
Use when your skin feels dry and before you go to bed tonight

Do Not Use Facial Soap Today
You can wash your face with plain warm water

Back To Your Normal Facial Routine Tomorrow
Facial products have a much higher absorption rate the week after Microneedling. It takes two weeks to fully see the results from the treatment

Book Your Next Microneedling Treatment One Month From Now
You must wait one month before your next treatment. However, Nano needling may be done weekly to accelerate results.
